Showcase the brilliance of your home.

When home decor is truly special, it's a showstopper.
Introducing the lacemaker sconce by Kohler.

The striking design is inspired by an original
lacemaker candlestick found at The Waelderhaus,
the old-world Austrian-style residence museum in

Kohler, Wisconsin, re-created by the Kohler family in
homage to their ancestral birthplace. The lacemaker
sconce combines Kohler's design history with the way
water plays with light to create a collection that spans
contemporary, transitional, and traditional styles.

We believe the right light changes everything, so we invite you to imagine the possibilities and bring your vision to every corner of your home.
