

WHO WE ARE

We're a team of designers with a passion for building beautiful spaces. With more than 25 years of experience in the event and entertainment industry, we launched a new brand, Spacekit, to create high-quality, upcycled wall art systems for residential and commercial applications. Each system is customizable, configurable, and interactive. With this system YOU pick the colors, finishes, size and configuration to transform your space to match your style. We're thrilled for the opportunity to bring beautiful, modular design into your home and work environments.

EASY SET UP

Our system is a snap to install! Each kit arrives with all the hardware you'll need for installation – a bubble level, 2-inch and 4-inch spacers, bowties, and 3M Command® Strips. No tools required and no holes in the wall.

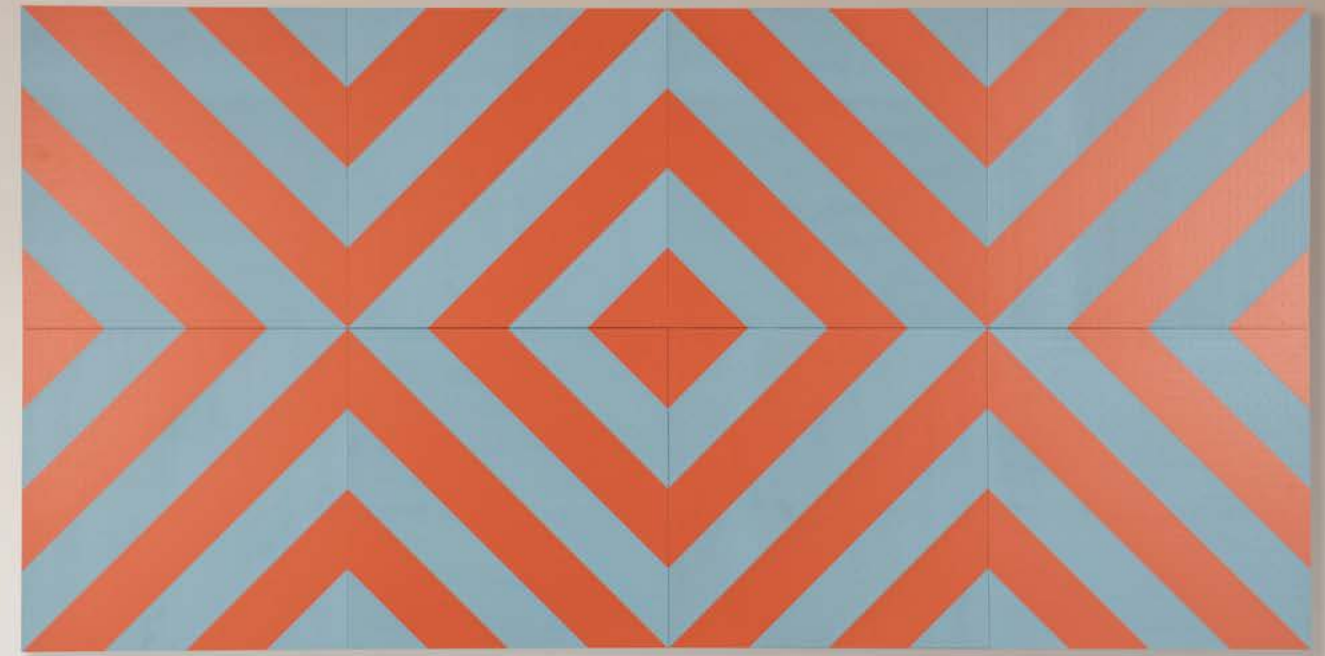

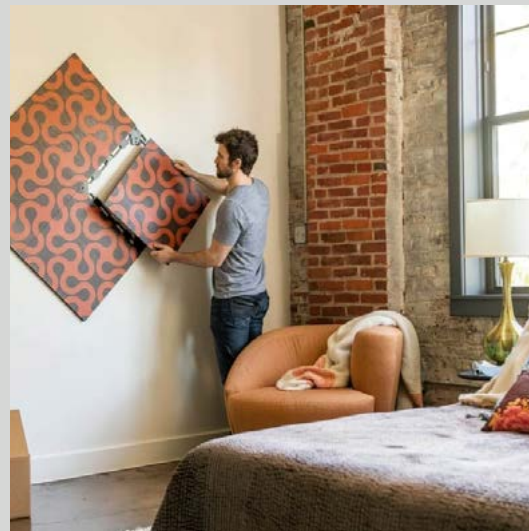

1 Hang the frame on your wall via adhesive strips or a screw

2 Snap the frames together

3 Snap art panels into place

FEATURED DESIGN: STRIPES

FEATURED DESIGN: SCALLOPS

CUSTOMIZABLE WALL ART

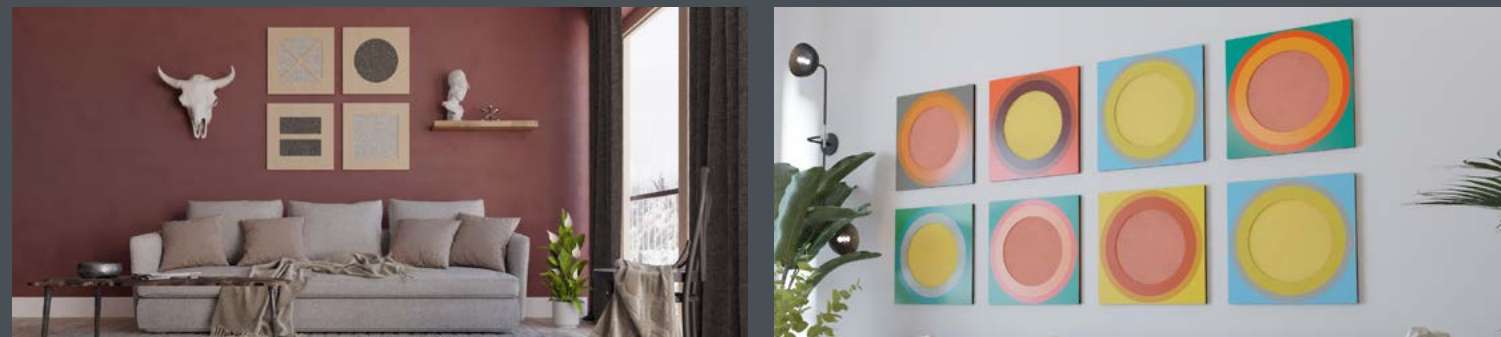

The look is entirely up to you! We have two standard panel sizes and a ton of finishes to choose from.
